## SOFTWARE DEVELOPER

## PROJECT

### Redesigned Geecore Limited Company's Website

Link: <https://geecorelimited.com/>

- Spearheaded the transformation of the company's website, migrating it from a static HTML, CSS, and Tailwind codebase to a dynamic, scalable React TypeScript application. This redesign improved maintainability and user experience while maintaining the site's visual consistency.

### Arimart e-commerce website

Link: <https://iterlen.netlify.app>

- Developed the frontend of Arimart, an e-commerce platform specializing in authentic African ingredients. The platform features user-friendly navigation, product categorization, and a seamless shopping experience, enabling customers to explore and purchase a wide range of African food products.

### GetlinkedChallenge Website

Link: <https://getlinkedchallenge.netlify.app/>

- Developed a website as part of a challenging web development initiative, employing a skill set that includes React JS, Framer Motion, React Bootstrap, Axios, Formik & Yup and React Redux.
- Effectively integrated a RESTful API provided by getlinked.ai to enhance the website's functionality and user experience.

### ChronicCare App

Translated the client's Figma design into a dynamic Flutter application tailored to meet the needs of both doctors and patients. The development stack included Firebase, Provider, Dart, and Flutter to ensure a robust and user-friendly solution.

### Flutter Education App

Created an application using a blend of Flutter and Dart, with seamless integration of Firebase, Provider, and external data sources, including NewsAPI and OpenLibrary API.

## CERTIFICATION

### Jobberman Soft-Skills Training - Jobberman Nigeria

*Issued Oct 2021*

*Credential ID 5065321*

### Mobile Application Development (Flutter) - Side Hustle

*Issued Nov 2021*

*Credential ID SH-IT-0033254*

### LAUTECH ICT Training Certificate - LAUTECH

*Issued Sep 2017*
