Location: Ibadan, Nigeria (Open to Remote)

Professional Summary

Software Developer with experience in React, Next.js, Flutter, TypeScript, Java and Firebase. Skilled in building scalable web and mobile applications with a focus on performance and user experience. Passionate about problem-solving, clean code, and delivering high-quality solutions.

Technical Skills

- Frontend: React, Next.js, Tailwind CSS, TypeScript, JavaScript. Bootstrap
- Mobile: Flutter and Dart
- Backend: Spring Boot, Firebase
- Database: MySQL, PostgreSQL, SQLite
- Tools: Git, Firebase, AWS (basic)
- Other: REST APIs, UI/UX fundamentals

Professional Experience

CT'Lab Software Solutions (Remote)

Frontend Software Developer | April 2025 – Present

- Developed and maintained frontend features for gbetpools.com, covering user, agent, and admin platforms both website and application.
- Built the frontend of **g-cattle.netlify.app**, a livestock management platform, ensuring responsive design and smooth user experience.
- Implemented and optimized frontend for hohaministries.com.ng, improving site performance and accessibility.
- Currently leading frontend development for **OkPools**, a betting platform similar to gbetpools, focusing on scalable architecture and intuitive UI.
- Collaborated with backend developers and designers in an Agile environment, using React, TypeScript, Tailwind CSS, and Git for version control.

Nouvells (Contract, Remote)

Frontend Website Developer | July 2025 – September 2025

- i. Contributed to the development of **MaketMasta**, a marketplace platform, collaborating with other developers to integrate frontend with backend endpoints.
- ii. Implemented core e-commerce features including product listing, add-to-cart functionality, order creation, and order management.
- iii. Enhanced the **admin dashboard** by developing role assignment functionality for vendors, improving platform management efficiency.

Geecore Limited (Full Time)

Frontend Website Developer | May 2024 – April 2025

- i. Independently designed and developed wivali.ai
- ii. Extended the **VvwebJs open-source website builder**, customizing and integrating it with a proprietary dashboard (app.wivali.ai).
- iii. Collaborated with a team of developers to enhance the website builder's functionality for business use.
- iv. Contributed to the development and maintenance of the company's website geecorelimited.com
- v. Designed and implemented reusable templates for the website builder, improving scalability and user experience.
- vi. Contributed to the **Vidxr Dashboard**, an AI-powered video editing platform, enhancing frontend performance and user experience.

Freelancing (Remote)

Software Developer | January 2024 – April 2025

- i. Developed and customized **WordPress websites** for clients.
- ii. Collaborated with other developers to **debug, optimize, and maintain software projects**.
- iii. Delivered solutions that improved **functionality, user experience, and performance** across client platforms.
- iv. **Arimart (E-Commerce Platform for African Ingredients)**: Developed the frontend of Arimart, an e-commerce platform specializing in authentic African ingredients. Implemented user-friendly navigation, product categorization, and a seamless shopping experience, enabling customers to explore and purchase a wide range of African food products.

SQI (Industrial Training)

Website and Mobile App Developer | August 2021 – January 2022

- i. Gained hands-on experience in **React.js** and **Flutter** during industrial training.

- ii. Built foundational skills in **web and mobile app development**, focusing on frontend user interfaces.
- iii. Collaborated with peers and mentors to understand **real-world software development workflows**.

Open-Source & Personal Work

- i. **Hotel Booking Full Stack App** – Built with **ReactJS** frontend and **Spring Boot** backend, featuring **secure user authentication** and booking management.
- ii. **Flutter UI Tunnel App** – Designed and implemented **custom UI screens** for mobile applications using Flutter.
- iii. **Tic Tac Toe Game** – Developed with **JavaScript, HTML, and CSS**, showcasing core **programming logic and problem-solving** skills.
- iv. **Portfolio Website** – Created a **personal site** with **TypeScript** to highlight projects, skills, and professional experience.
- v. **Getlinked Challenge** – A dynamic React.js app incorporating **Redux** for state management, form validation (Formik & Yup), fluid animations (Framer Motion + intersection observer), and smooth loading UI (react-spinners). Styled with styled-components and Bootstrap, and connected frontend to backend via Axios. ([getlinked](#))
- vi. **Space Tourism Website** — Developed a polished, responsive **React.js** solution from a Frontend Mentor challenge, showcasing your front-end UI design and implementation skills.
- vii. **School Management System (In Progress)** – Currently developing a full-stack solution to manage students, staff, classes, and payments.

Education

B.Tech. in Pure and Applied Physics – Ladoke Akintola University of Technology | 2023

Professional Course, Software Development (Web and Application Option) - SQI College of ICT | 2021

Certification

Jobberman Soft-Skills Training - Jobberman Nigeria | October 2021

Mobile Application Development (Flutter) - Side Hustle | November 2021

LAUTECH ICT Training Certificate - LAUTECH | 2017
